

# Exhibitors

***We are pleased to extend to you and your company the opportunity to exhibit at EuroEM 2020.*** This year the event is being held in Hamburg, Germany from 24-28 August 2020.

## **Exhibitors: Please click this link to register for EuroEM 2020!**

EuroEM is the premier high power electromagnetic (HPEM) conference in the world, providing an excellent forum for the exchange and dissemination of technical information on high-power electromagnetics (including HEMP, IEMI, power system transients, lightning, land mine detection, HPEM antenna design, and analytic tools, and measurement methods.

Our anticipated attendee count for 2020 is 150-200 participants during the 4-day event, which consists of a plenary session, oral presentations, poster sessions and technical discussions across all areas of high-power electromagnetic applications.

Booth space for the exhibitors is planned for a large 8 x 10 foot area for each exhibitor. This same area will be shared with all conference refreshment breaks that are provided during each day of the conference. Two tables (4 feet x 30 inches) and two chairs will be provided within each space. Electrical connections will be provided for 230 V appliances.

The schedule for the exhibition begins on the first day of the conference, Monday, 24th August. The conference runs until Thursday at 5:00 pm, so the plan is to end the exhibition at noon on Thursday, 27 August. This will allow time on Thursday afternoon to break down the exhibits.

Our goal is to provide a comfortable and convenient atmosphere for exhibitors to meet the attendees and to promote their products and capabilities. Being a conference exhibitor is the best way to expose your company to a global community of industrial, government, and university organizations.

There are limited exhibitor booths available, and you are therefore encouraged to sign up as soon as possible in order to receive your preferred choices. Priority for booth location and event sponsorship choices will be given on a first come, first served basis based on the receipt date of the application and the accompanying reservation deposit.

Your contribution and involvement as a Sponsor is vital to the continued success of our conference. The ultimate goal is to give everyone the ability to benefit from this event by providing the potential for both business opportunities and increasing our ability to learn about the technology and products. We are excited to include you in the EuroEM 2020 activities and look forward to your participation.
