As part of the cooperation between Helmut Schmidt University / University of the Federal Armed Forces Hamburg (HSU/UniBw H) and the Hamburg Institute of International Economics (HWWI), the Faculty of Economics and Social Sciences is seeking to fill a position that is available as of the next possible date of a

Research Assistant (m/f/d)
(16,21 €/hour, 18h/week)

for a limited period of 3 years.

The HWWI is an independent, privately financed economic research institute. It is organized as a non-profit limited liability company; the sole shareholder is the Hamburg Chamber of Commerce. The HWWI works closely with the HSU/UniBw H. Within the framework of this cooperation, HSU/UniBw H assumes the scientific direction of the HWWI and provides the HWWI with additional scientific staff members to conduct research in the HWWI's fields of work. The HWWI works in the field of applied empirical economic research and aims to actively participate in economic policy debates on the basis of its own research activities.

The advertised position is assigned to the research area "Business Cycle & Growth" at the HWWI. Within the framework of cooperation with the HWWI, there may be the possibility of additional employment in a part-time capacity at the HWWI.

Your areas of responsibility:

- Research in the field of the research area "Business Cycle & Growth".
- Collaboration on economic forecasts of the Institute
- Assistance in the acquisition and implementation of third-party funded projects
- Possibility of further scientific qualification (e.g. doctorate or habilitation)

Qualification requirements:

- University degree (Diplom (univ.), Master's) in economics or another quantitatively oriented course of study with above-average grades
- Interest in macroeconomic issues, especially in the area of international trade; previous knowledge of business cycle research is desirable, but not essential.
- Very good knowledge in the application of empirical methods, ideally time series econometrics and microeconometrics
- Proficiency in at least one programming language, ideally the statistical software R; in any case, the willingness to quickly familiarize oneself with R is required
- Very good computer skills
• Good knowledge of English, knowledge of German is an advantage

For information on technical questions, please contact Univ.-Prof. Dr. Michael Berlemann, e-mail: Michael.Berlemann@hsu-hh.de or Berlemann@hwwi.org.

The employment is based on the provisions of the Wissenschaftszeitvertragsgesetz (WissZeitVG).

Applications from women are expressly encouraged. Women will be given preferential consideration in areas in which they are underrepresented, if they demonstrate the same eligibility, capabilities and professional performance, provided that the reasons relating to the person of a competitor do not prevail. We expressly welcome applications from severely disabled persons and persons with equivalent disabilities. Severely disabled persons and their equals will be given preferential consideration in cases of equal suitability, ability and professional performance. Only a minimum level of physical aptitude is required for them. The fulfilment of further prerequisites of the job announcement is considered individually.
